

### **Entry to Lough Erne Yacht Club**

Please note the entrance to LEYC is through our neighbours' garden. Please respect this and use the pull in areas when passing. Do not drive or park on the grass either side of the lane under any circumstances.

### **Rigging, Launching & Trailer Parking**

On arrival please park your boat stern to the bank and rig mast in car park 1 between the club house and the static caravans.

Once ready to launch walk to the crane and tell the crane driver you are ready. Please note only 2 boats allowed at the crane at any time.

When launched, please take your trailer to designated trailer parking area between the hangar and the gate. Please park trailers stern first to the gate parallel to the road, starting at the gate and working back towards the hangar.

### **Camping**

There are two camping areas on a first come first served basis.

Tents can be pitched on the lawn between the club house and the RNLI station or on the lawn area on the right hand side as you exit the gate, between the gate and the first tree. No cars to be parked on either lawn camping area. The camping area outside the gate has kindly been lent to the club by our neighbours please show respect to them at all times.

Campervans /Caravans can be parked either side of the clubhouse. When these areas are full please use the area next to the bank in car park 2.

### **Parking**

Please only park in car parking areas 1 and 2 and in front of the Clubhouse, **do not park in the static caravan area or in front of the marina**. In both the car parks please park parallel to the water and bank, or we will run out of room! Once these areas are full please park in any remaining space in trailer parking area between the hangar and the gate.

### **Mooring**

Visiting boats are to be moored on the outside of the marina in front of the crane and will need to be rafted two or three deep. Can the first boats to launch please move toward the corner of the marina and raft together 3 deep to allow late launchers to fill in nearer the crane.

Any questions or queries about any of the above, please ask at registration or someone in a high viz vest or contact JP on 0044 7989963821.

Thanks for your co-operation.

The organising committee
